Welcome

Dear friends,
Dear colleagues,

Toulouse is honoured and delighted to be organizing the *24th Congress of the European Rhinologic Society*, in conjunction with the *31st International Symposium on Infection and Allergy of the Nose*.

This congress will provide an opportunity for each and every one of us to share our experience and discuss breakthroughs in our various specialist fields, a necessary prerequisite if we are to successfully assess our own practices. We will spare no efforts to ensure that the event provides a forum for extensive and fruitful scientific debate, in an interactive and convivial atmosphere.

With its many plenary sessions, symposiums, lectures, instructional courses, video sessions and live surgery sessions, we hope to make this congress an event to remember, not only in terms of its scientific content, but also as a social occasion.

"La Ville Rose", as Toulouse is known for its distinctive pink brick architecture, will not fail to seduce you with its historical past as well as its resolutely forward-looking technological and scientific dimension. France's 4th largest city, Toulouse combines a rich historical and cultural heritage (the City Hall, Church of the Jacobins with its cloister, Saint-Sernin Basilica, the Bemberg Foundation, the "Musée des Augustins", the "Canal du Midi", the "Cité de l'Espace", the Chateau of the Counts of Carcassonne...) and the delights of its world-famous "Gourmet cuisine" (cassoulet, foie gras)...

It is with a great pleasure that we invite you to Toulouse and we are confident that you will take away with you fond memories of your stay in "La Ville Rose".
